

## Voice of America (Russian service)

USA 32px spoken The world 1947 27 Jul 2008 Russian service goes to the Internet April 2014 cease broadcasting on MW in Moscow golos-ameriki.ru Voice of America VOA Voice of America radio station contained in the Washington and broadcasting in English and 45 languages. First aired on February 24 1942. Was created in contrast to the Goebbels propaganda machine. The radio station informational and cultural programs. Russian service appeared in 1947. The staff were mostly immigrants of the second wave among whom were Soviet intelligence defector Alexander barmine. Since 1949, started the programs in the Ukrainian language since 1951, Lithuanian, Latvian, Estonian, Georgian, Armenian and Azerbaijani languages. In the mid 70-ies of the radio station was reorganized was not the government which journalists could Express their point of view on the events or the views of the publisher. In Soviet times, the Voice of America and the Freedom were the only sources of information about events in the USSR and the world. However, programmes in the Russian language and other languages of the peoples of the USSR, Soviet authorities were constantly jammed. But through this jamming was something to hear, albeit with great effort. The name of the Voice of America in the Soviet Union quickly became a household name foreign radio stations criticized the policy of the Soviet Union and Soviet bloc countries, collectively called enemy voices. Jamming ceased only with the advent of perestroika. Also the USSR was a popular jazz transmission the Voice of American music Music USA which was led by Willis Conover. By the evening Moscow time when broadcast, this transmission is jamming the radio station continued. In Moscow, the Voice of America broadcast on medium wave and on FM through public radio from 2200 to 000 in Russian and English several times during the day. Since the beginning of 2000 was distributed at the World radio 810 kHz in Russian earlier in Russian and English. In 2006, the volume of broadcasting in Russia amounted to 3 hours 1 hour replay of yesterday. Also leaves a half-hour television news programme in Russian language broadcast by satellite to the European part of Russia. Was reduced Albanian Bosnian Macedonian Serbian edition and terminated broadcasting in Hindi. Completely stopped broadcasting on Bulgarian Croatian Greek Thai Turkish and Georgian languages. In Russia of the 42 radio stations retranslateui materials of the voice of America in 2005, was involved only 5. In October 2007, the planned cessation of broadcast in the Russian language. Updated station's website. Changes in the programming of voice of America are explained by the change of priorities on the released funds
